7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Continue public review of construction applications, maintain conformance to technical standards of NYSDEC, provide training to Village MS4 staff.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village is now using the NYSDEC Inspection Form which is more specific to erosion and sediment control. The Village continues to maintain an inspection logbook but is beginning to create an electronic database that will work in conjunction with its existing GIS software. Contaminants in the DPW garage were discharging to a dry well in same garage. The dry well has been permanently sealed with a plug.

C. How many times was this observation measured or evaluated in this reporting period?

2

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

● Yes ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

● Yes ○ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Ongoing. The Village continues to evaluate construction compliance strategies developed during site inspections and if required will revise their standards and procedures of construction practices. The Village SWMP will be updated to reflect NYSDEC protocols and changes to Village law. Training will continue to be provided to Village building and public works officials.
